Figure 1

(a) Bar chart showing the percentage of cells with ≥3 centrosomes across different cell line types and metastatic status. The x-axis represents cell line types, and the y-axis represents the percentage of cells.

(b) Images showing centrosomes in different cell lines. Top row: Nohm1 and SGM2. Bottom row: SGM4 and WM-98-1.

(c) Bar chart for a subset of cell lines, showing the percentage of cells with ≥3 centrosomes.
