

**Supporting Questionnaire (S2):** Questionnaire for children in blood sampling arm

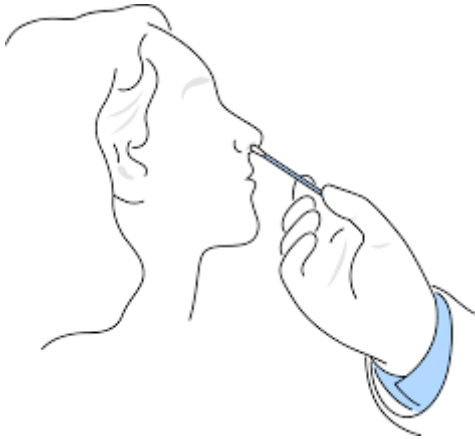

# **COVID-19: sKIDS Study Questionnaire**

Participant Number:

We are going to take a nose and throat swab, blood test and saliva test to see if you have had the COVID-19 virus.

The nose swab looks like this:

A small cotton bud which tickles the inside of both your nostrils. It might make you sneeze!

How are you feeling about your nose swab?

Very nervous!

A little bit nervous

I don't mind, I'm not worried

I'm looking forward to it!

The throat swab looks like this:

We will tickle both sides of the back of your throat with a small cotton bud. It might make you cough!

How are you feeling about your throat swab?

Very nervous!

A little bit nervous

I don't mind, I'm not worried

I'm looking forward to it!

The blood test looks like this:

A tiny needle will take blood from your arm or the back of your hand. We will look for your best vein! We will also put on some special numbing cream so that it doesn't hurt.

We will take a tube of blood. We will also put some drops of blood on a card.

How are you feeling about your blood test?

Very nervous!

A little bit nervous

I don't mind, I'm not worried

I'm looking forward to it!

The saliva test looks like this:

It is a blue sponge lollipop that you put in your mouth. Get it soggy with as much spit as possible! Wipe it around the inside of your cheeks and gums – a bit like when you brush your teeth.

How are you feeling about your saliva test?

Very nervous!

A little bit nervous

I don't mind, I'm not worried

I'm looking forward to it!
